

Hello Everyone!

It's Cybersecurity 1st Friday!

Welcome back for the April event!

This month we will hear from Beth Braaten Campus Vice President of Community Relations at Colorado Technical University. She and her team will provide an update regarding CTU's offerings and programs. Erin Miller, Executive Director, for the Space ISAC will provide an update on the great things going on in the Space ecosystem and highlight some upcoming initiatives that her organization is leading or participating in. Bob McLaughlin will join us from Mt. Carmel Veterans Service Center and discuss opportunities and resources for veterans in our community. Finally, we will hear from Stephen Treanor and his team at EnSCO with an update on their contributions within the community.

This month's sponsor and keynote presenter will be EnSCO who's cybersecurity offerings focus on protecting operations through prevention, detection, response, and sustainment. These fundamentals formed the network architectures, security policies and response plans used in our nation's most challenging environments – from U.S. Space Force launch ranges, national security missions and surface transportation operations to avionics airworthiness security systems, airport modernization, healthcare and the Defense Industrial Base (DIB).

We will have updated community announcements and other event dates as well.

We will have some additional Cybersecurity First Friday merchandise.

April's food truck is a CFF Favorite! "RJ Foodies" Filipino & Asian Cuisine!

April's First Friday will be held at the National Cybersecurity Center and is co-hosted by the Murray Security Services and Colorado Springs Chamber & EDC.

**REGISTRATION IS REQUIRED:** [www.cybersecurityfirstfriday.com](http://www.cybersecurityfirstfriday.com) Please create an account and register for April's Cybersecurity First Friday on our new website!

So, grab your favorite beverage and join us.

Hope to see you there!

Shawn & Vinnie
